i spent many many many hours playing netstorm when my dad randomly picked it up for me. and from what i can tell the art seems very similar and nice. the controls seem similar aswell if unfinished. sadly couldn't test out gameplay much at all. as there is no singleplayer yet and noone was online. tentatively i'd say its worth a purchase from what i did manage to see even if the price is a bit steep.. For \$1 this shmup is a great deal!

I had a quick play through and I'm really impress with the gameplay. Collect enough coins you can upgrade your weapons and ship and there are plenty of customizing available in the shop that can be access anytime during in game play. I also love the retro graphics with scanlines and the overall graphics is just amazing.

This game isn't easy and you will die a lot. I like the challenge and the difficulty level is just right for a shmup fan.

There's no gamepad support at the moment but Devs are working on it. Lucky for me I have a Steam Controller and able to map KB input.

Also edit your S3DClient.cfg file to enable Fullscreen and set resolution.. I play it every day. I love it. I'll soon play it more than GTA V man. Only think I hate is that I can't take big creations without lag, but that's not the game's fault.. The idea is simple yet clever - a bejeweled-like game that lets you clear the board in the rhythm of your favourite music. Sounds like fun, right? Well, it's not. The beat detection - a core part of this game mechanics - is totally screwed up which makes it pretty much unplayable. First time, I played for about an hour before I grew irritated enough to uninstall the game. Second time, I got frustrated after a few songs. Third time, I didn't even manage to finish the first song. There will be no fourth time, I'm more than sure.. I want to love this game I really do but I can not reccomend this to any one, I ffnd that when I started it was extremley challengeing but fair. But as the game goes on it starts to become cheap and it just turns to random luck on weather or not you progress.. Great old-school RPG. I just wish JV would reduce the amount of trash mobs you have to fight constantly.. This game asks me not to write this, but God dammit, I'm going to write it anyway because I wrote it and it's the truth.

I \u2665\u2665\u2665\u2665ING LOVE THIS GAME. IT IS THE BEST GAME EVER, PERIOD. LADIES AND GENTLEMEN, PAINTBALL 707.. Simple and quick, yet always fun to play.

Kindof enjoyable diversion but won't come close to joining Duck Game, Towerfall, or Samurai Gunn in my go-to local multiplayer classics library. The time travel mechanic is cool but lacks strategic depth.

Worth a try but not a buy at the moment. Haven't tried single player and don't plan to.. Some achievements are ridiculous and, unlike Pixel Puzzles Japan, I don't think the art of the puzzles are nice. Also, it works almost the same as PP Japan with the point and click to select pieces and it does have some flaws.

The menu mini-game need a pause button, because its achievements are ridiculous! Ohhh, maybe it is a good idea to make the player kill 5000 zombies. In a sit. Which takes more than 1:30 hours.... A great game in the making... Its in a perfectly playable state, a few minor bugs, i like the idea, and am really waiting to see were it goes.

I will update this as we see some more content, and have some one to try the multiplayer with.

for the price ya cant go wrong.. Like a mousy-cheesy version of World of Goo.. Reminds me of old school 8bit genre keep up the good work. !!! READ THIS BEFORE YOU BUY THIS PACK AND COMPLAIN !!!

> It is recomended if you do it \*step by step\* with the solution I provided \*side by side\* <

It will NOT work if you

1V using a non-Steam version

2V \*newly\* install a Steam-version War Thunder and run it under the current \*main Gaijin\* account with the HOPE that the pack will be there after buy it.

#### SOLUTION:

Step 1: C:\Users\My Games\ War Thunder ( search it! in which ever disk you placed My Games ) and >DELETE IT

Step 2:Launch War thunder from Steam

Step 3: Log into the \*main Gaijin\* account using email and password for the first time after the delete.

>!!! DO NOT PRESS STEAM LOG IN FOR THE FIRST TIME !!!<

Step 4:

> Click PilotVTanker picture, or your name next to the WAR THUNDER text upper screen

> Switch User

Step 5: Steam Log in

Step 6: Quit War Thunder

Step 7: Launch War Thunder via Steam Library

Step 8: Steam Log in and Enjoy!. It's a good game don't get me wrong.....but for \$19.99 it's lacking. I wish it had a mode that you could just be at the station and it would just generate missions. You just play through the story line and that is it. Maybe I'm being too picky but def. try to get this game when it goes on sale, don't feel like I quite got \$20 worth. It's fun to play games like this when you do it in real life!!
